**Subject:** [External] Dominion energy proposed surcharge for solar customers

It will not be fair to PENALIZE only solar customers with a "subscription" fee for putting the encouraged solar panels on their homes. First, the company restricts you to a certain amount the panels can produce. The federal government encourages the panels . Then the energy company wants to add a charge to only solar customers so that their energy savings are cut by almost half. That is just plain wrong. It is a form of discrimination coming after the fact of installing panels. PLEASE, DO WHATS RIGHT IN THIS SITUATION..
